FLAMINGO RESORT & SPA
SONOMA COUNTY

Profile: The Flamingo Resort and Spa, a Santa Rosa historic landmark, has the classic charm of the resort hotels of the 1950s and the modern amenities to satisfy today's guest. The fabled Las Vegas Flamingo inspired the resort's graceful glass and stone design. Strolling along curving glass-enclosed hallways, along polished flagstone paths framed by bands of plant-dotted white rocks leads to a giant sycamore and cedar dotted pool. Set among the artfully-maintained gardens are the resort's world-class health club and spa. The resort is central to twelve distinct wine appellations and the many other recreational attractions of this premier Sonoma County Wine Country. The resort was built in 1957 and the 170-room resort offers today's guests the charisma of the past along with numerous modern amenities. The resort has been owned and operated by the Ehret family for two generations allowing for affordable pricing and premier service.
